Godfrey Ogbeide

Full Stack Software Developer

Professional Summary

I am a passionate and skilled full-stack software developer with expertise in building robust and scalable web applications. My core competencies lie in Spring Boot Java backend development, React frontend development, and integrating secure payment solutions using Stripe. I have a strong foundation in creating RESTful APIs, implementing authentication and authorization systems, and developing responsive user interfaces.

Technical Skills

Backend: Java, Spring Boot, Gradle, RESTful APIs

Frontend: React.js, JavaScript, HTML5, CSS3

Database: MySQL, PostgreSQL

Payment Integration: Stripe API

Authentication: JWT (JSON Web Tokens)

Version Control: Git, GitHub

Build Tools: Gradle

Other: Docker, Agile methodologies

Professional Experience

Full Stack Developer | E-Commerce Solutions Inc. | Jan 2023- Present

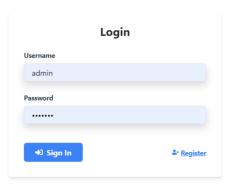

- Developed and maintained a full-stack e-commerce platform using Spring Boot and React.
- Implemented secure user authentication and authorization using JWT.
- Integrated Stripe payment gateway for secure and efficient transaction processing.
- Created responsive and intuitive user interfaces using React and Bootstrap.
- Optimized database queries and improved application performance.
- Collaborated with cross-functional teams to deliver high-quality software products.

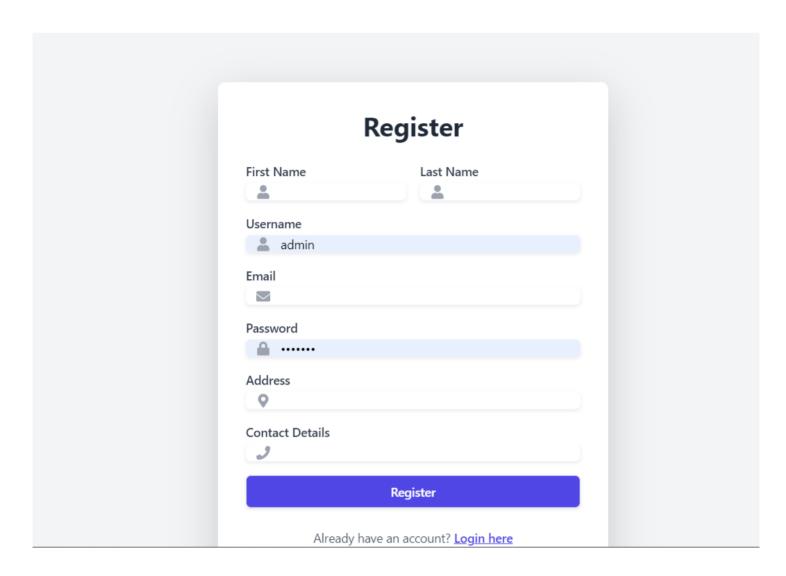

E-commerce Backend Cod(Java Spring Boot)

E-commerce Frontend Code(React/Stripe Integration)

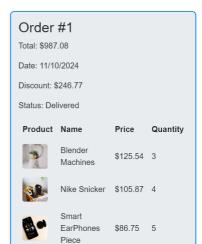

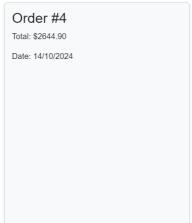

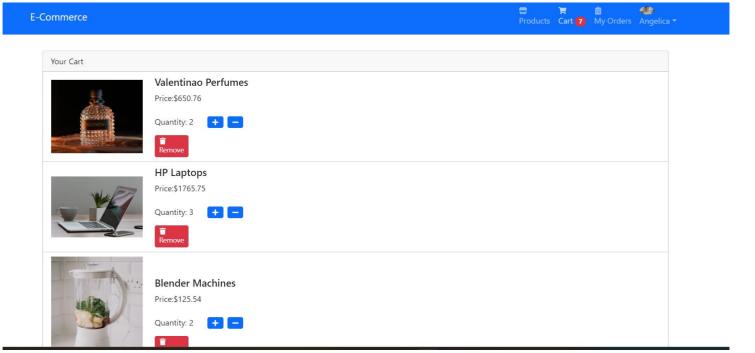

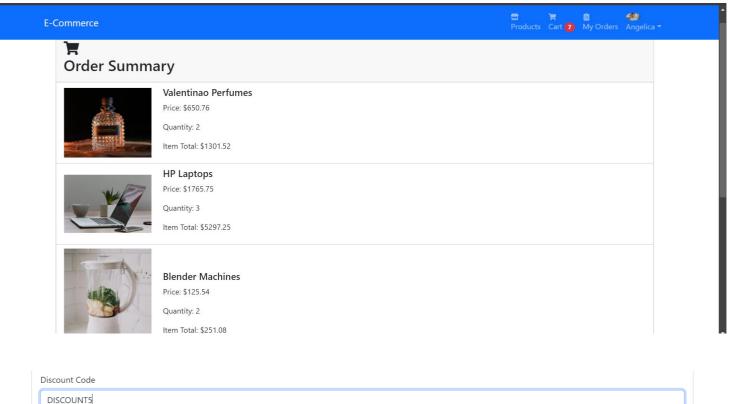

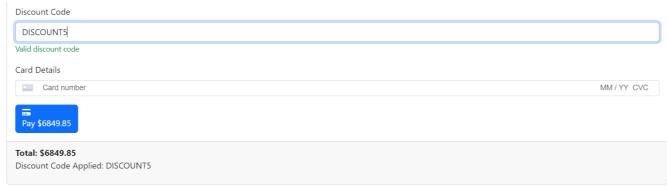

Your Orders

Objectives

Skill Development: To enhance my technical skills in full-stack development, particularly in advanced React patterns and cloud technologies.

Real-World Experience: To gain hands-on experience through internships that allow me to contribute to meaningful projects while learning from industry professionals.

Collaboration: To work effectively within cross-functional teams, leveraging Agile methodologies to deliver high-quality software solutions.

Innovation: To contribute to innovative projects that utilize the latest technologies and best practices in software development

Key Projects

E-Commerce Platform

Technologies: Spring Boot, Java, Gradle, React, Stripe API, JWT

- -A comprehensive e-commerce solution with features including:
- User authentication and role-based access control
- Product catalog with search and filter functionality
- Shopping cart and order management system
- Secure payment processing with Stripe integration
- Admin dashboard for managing products, orders, and users

Inventory Management System

Technologies: Spring Boot, Java, React, MySQL

An internal tool for tracking and managing product inventory, featuring:

- Real-time stock updates
- Automated reorder notifications
- Reporting and analytics dashboard

Education

Bachelor of Science in Computer Science

University of Technology | Graduated: 2026

Certifications

- Oracle Certified Professional, Java SE 11 Developer
- AWS Certified Developer ? Associate

Professional Development

- Attended Spring Framework Conference, 2023
- Completed 'Advanced React Patterns' online course, 2022
